

The Case For Donating

Information for laptop donors

Devices for Change – Refurbish, Reuse, Reconnect

What Songa Dev does

Songa Development Initiative Songa Development Initiative is a non-profit, community-based organization, we empower communities through impactful development initiatives aimed at sustainable growth and resilience, thereby creating opportunities for lasting community transformation

We provide **refurbished laptops and digital education software** to schools catering to vulnerable and refugee children.

We target to reach over **25,000 children** in 5 years.

How we unlock potential

Collect

Organizations can donate their gently used electronic devices to us. We collect them and give them new life.

Distribute

We then distribute the devices to education centers that work with refugee and vulnerable children.

Monitor

We monitor and evaluate our impact to continuously learn from and improve our services.

Recycle

Via our disposal partners, schools can responsibly retire and recycle devices when they reach the end of their lives.

Load

We have developed a platform that integrates a variety of informative, interactive and educational content.

Train

We provide resources and tools to support teachers and children in e-learning and digital literacy.

Develop

We've co-developed a social emotional learning intervention and app to address the wellbeing of our young learners.

Donating is simple

Download and complete
the specifications sheet

Songa Dev will arrange
the logistics with your
team, working with your
existing processes and
reporting needs.

Laptops specifications
